ABOUT ME

I am a diploma student in Software Engineering actively seeking an internship opportunity to apply and expand my programming and problem-solving skills in a real-world environment. I have a solid foundation in languages such as HTML, PHP, and JAVA, and hands-on experience from academic projects involving software development and team collaboration. I am a fast learner, eager to contribute to a development team, and committed to growing into a well-rounded software developer.

EXPERIENCE

Teaching Canva To Villagers

2023

Kampung Simpok

- Led community-based design training, teaching villagers to use Canva for creating flyers, posters, and event materials.
- Delivered interactive sessions focused on accessibility for non-technical participants.
- Improved communication and instructional abilities by translating complex tools into simple, practical steps.

Persidangan Pemerkasaan Kursus (MPU)

2024

- Co-created a comic illustrating a real corruption case to promote public awareness and integrity through visual storytelling.
- Engaged attendees in meaningful dialogue about corruption during a public exhibition.
- Strengthened skills in public communication, collaboration, and civic advocacy.
